THE TRIBUNE.

Correspondence of The New-York Tribune. SARATOGA SPRINGS, Aug. 15th, 1843.

There is an immense crowd of visiters here at this time; more, it is thought, than at any former period. It is about seventeen years since I visited these Springs. Then the surrounding country was a dreary waste of sand and scraggy pines. Even the neighborhood of the far-famed Congress Spring was in every aspect of the case, (except its salutary waters,) forbidding in the extreme, presenting no other variety than a quagmire surrounded by sterile sand hills. Ballston was then thought and spoken of and resorted to by visiters as the most fashionable place of resort. But what a change has taken place! Ballston and its Springs have gone into oblivion, and durmy stay here I have not heard the place spoken of by a single individual. Saratoga is in every one's mouth, and its many fountains of health are visiters, and a number of boys kept busily emday morning the crowd was so great that it was high-this one will be 425 feet. with difficulty approached, and as I saw no chance for a modest man, I had to content myself with a draught from the tonic waters of the Columbia Spring hard by.

militia;) Mr. Van Buren, the ex-President; Mr. Collyer, Esq. the ex-Comptroller General; Mr. Porter, son of the Governor of Pennsylvana, and the present Sheriff of Philadelphia. There are many other distinguished personages, clerical and lay, whose names I will not undertake to give. Président Wayland has left his better half here as a hostage to ensure his safe return while he has

some good work. I was about to mention among the list of visiters the name of John C. Spencer, the present Secretary of the Treasury, but I find the knowing ones so much divided upon the question whether it be Mr. S. or not, that I dare not trust the circumstancial evidence. At breakfast one morning I heard Col. Stone's familiar voice pronouncing the words "Good morning, Mr. Spencer," while his eyes were directed with a bow to

a gentleman at the other end of the table whom every body said was Mr. Spencer. The gentlecussing his breakfast, but looked up and observing | grand Astronomical Observatory. the Colonel's courteous salutation, replied, "Good morning, sir." " Pray how are you getting on at Washington?" quoth the Editor of the Commercial. "Very well," says the gentleman," "except that the Captain is somewhat uneasy." "He has some reason to be. He has a pretty good Cabinet, however, except the Secretary of the Treasury," says the Col. "I suppose I must understand the exception as a courtesy to present company and in return must inform you that it is in contemplation to 'improve the condition' of the Commercial Advertiser. How would an embassy abroad answer the purpose." The Colonel seemed anxious to improve the condition of his valuable paper if it could be made any better than it is, but there was such a general laugh at the table that I did not hear his reply. Some thought the gentleman intended to make an open offer to purchase the Colonel; others thought it an unmeaning joke, while the more knowing ones said it was a dry hit at a certain mussion which the Colonel expected to receive, but which, to the disappointment of his friends, was unexpectedly withheld. I saw the gentleman who was thus addressed by Col. Stone in frequent conversation with Mr. Van Buren, Chancellor Walworth, Walter Bowne, John A. Collver and other distinguished personages. I would therefore advise our Whig friends to be on the look-out for some new movement on the political chess-board.

I am at the Union Hall, where every thing is conducted with great regularity and order. Yours,

(37- We think that without being at Saratoga we can explan. A distinguished friend of ours, Judge Lewis, from Pennsylvania possed through this City a few days since whose close resemblance to Mr. Spencer has more than once involved him in embarrassments, out of which he usually exbicates himself by humoring the joke, as in the instance related by our correspondent.

BISHOP OF RHODE ISLAND .- The consecration of the Rev. Mr. Henshaw took place on Friday. A large number of the clergy were in attendance. Six Bishops were present and assisted in the exercises-Right Rev. Bishops Brownell, of Connecticut; Onderdonk, of New York; Hopkins, of Vermont; Doane, New Jersey; Jones, of Virginia; and Whittingham, of Maryland.

FLOWERS .- It was recently stated at a meeting of the Horticultural Society at Paris, that the daily sales of flowers and flowering plants at the three markets and the different shops which serve the nobility and wealthy commoners, with garlands and bouquets, amount to no less than 250,000 francs, or about \$50,000.

NEW-YORK, THURSDAY MORNING, AUGUST 17, 1843.

MONUMENT TO GEORGE WASHINGTON. LIBRARY ... OBSERVATORY ... GALLERY FOR PAINTINGS, STATUARY, ETC.

VOL. III. NO. 111.

In the year 1833 an act of Incorporation was granted by the Legislature of New-York to a company of gentlemen for the purpose of erecting in the City of New-York a monument to the memory of General Washington. The Company organized by the appointment of Hon. Morgan Lewis President, and Hon. Gideon Lee Treasurer. The subject was brought before the public, and some efforts were made to procure subscriptions, which to the amount of some \$50,000, were speedily obtained, but from some cause or other the matter was not vigorously prosecuted, and it went to sleep. Fortunately the greater amount of the moneys actually collected fell into honest hands. The Hon. Stephen Allen succeeded Mr. Lee as Treasurer, and after the Company ceased to act, Mr. Allen deposited the money in the Savings Bank, where it has been accumulating ever

At the session of 1843, the Legislature passed an act incorporating The Washington Monument Association in the City of New-York, and we are informed that the gentlemen named in the first section of the act have so far matured their literally running down every one's throat. The plans, that there remains but little doubt of the Congress Spring is crowded every morning by speedy completion of one of the most splendid Monumental Edifices ever reared in the ployed dipping up the delightful water. Yester. world. The Bunker Hill Monument is 220 feet

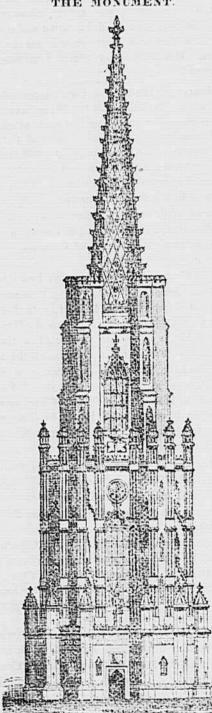

In a few days their plans will be laid fully before the public, and the books for subscriptions will be opened on the first of September. The moneys collected by the old Company, we under-Among the visiters here are Col. Webb, of the stand, will be passed over to the Treasurer of the Regular Army, and Col. Stone, (I presume of the present Association, and we have good authority for stating that our public spirited fellow citizen, Granger, the ex-Postmaster General; John A. the Hon. Moses H. Grinnell, heads the list of subscribers with the princely sum of \$10,000, while Mr. Mason, one of the contractors on the Harlem Bridge, agrees to furnish stone from his quarries for the entire work, the value of which is estimated at \$20,000.

The engraving which we present below is from gone to Hamilton College, doubtless to perform the plan drawn by Calvin Pollard, Esq. an eminent New-York architect. The material proposed for its construction is the North River granite, and the entire cost will probably not exceed \$400,000.

The site for location is not yet positively agreed even my own eyes to affirm the fact. I will mention upon, but the Park in front of the City Hall, and Union Square, are both spoken of.

Below we give a full description of this magnificent structure, embracing in its design not only the Monument, but also Halls for a Library, Galleries for Paintings, and Rooms for various man appeared to be very much engaged in dis. Collections of Revolutionary Memorials, and a

THE MONUMENT.

a Description

OF THE GREAT NATIONAL MONUMENT.

In Memory of GEORGE WASHINGTON.

TO BE ERECTED IN THE CITY OF NEW-YORK, BY THE VOLUNTARY CONTRIBUTIONS OF THE

PEOPLE OF THESE UNITED STATES, OF ONE DOLLAR, AND UPWARDS.

ument is that of a Pentagon, 68 feet in diameter, forming a rotunda of the interior forty feet in diameter, and forty feet high; to be finished in the Gothic style of architecture, with projecting buttresses, at each angle of 25x34 feet, and 43 feet high; also, two octagon turrets at the angles of the buttresses 6 feet 6 inches in diameter, and 68 feet high from the walk to the top of the crockets, and 117 feet at the extreme

angles of the base. In each buttress there will be a room 22x19 feet, well light. ed by three pointed Gethic Windows of 5x18 feet; and fitted up for a free Library, which will contain 400,000 volumes. Besides it will contain the History and Memorials of the Revolution; with a Gallery, communicating with each room, for Busts and Historical Paintings.

Each room and section is approached from the first Rotunda by five entrances of 9x16 feet, and five spiral stone staircases, of easy ascent, to the Libraries. Over each entrance will be a marble Tablet, 8x8 feet, commemorating the histotory and progress of the Monument.

On the freize of the first section will be placed 98 Gothic white marble Tablets, on which to record the names of the signers of the Declaration of Independence; also, the names

ornice and balustrade, also, angular projecting buttresses of 24 by 18 feet, with two external and internal ornamental turrets six feet in diameter and 126 feet high, and surmounted with rich Gothic canopies. The buttresses are to contain 45 richly finished niches for marble statuary. The interior of his section will be the grand Monumental Rotunda, 40 feet n diameter and 100 feet high, finished in the most splendid style of Gothic architecture, and lit by five pointed Gothic windows, and five circular windows, all glazed with thick ground and stained glass.

In this Rotunda is intended to be placed Washington's Statue, holding the Declaration of Independence, and surounded by La Fayette and our other foreign allies. In the thirteen niches are to be placed statues of the thirteen Major Generals appointed by Congress at Philadelphia, when WASHINGTON was elected to take command of the armies; Il to be finished in the full military costume of their day.

The thirteen columns are intended to represent the thirteen confederated States, supporting a richly ornamented Gothic, emopied ceiling, with an eagle suspended from the centre.-Each column is to support the States' Flag. There will be two galleries of light ornamental iron work above the canopy, where can be seen the Statuary and Historical Paintings, illustrating the events of the Revolution.

The third section is a plain Pentagon Tower 48 feet at the angles of the base, and 87 feet high, surmounted with a rich figured cornice and balastrade, with plain angular but resses projecting 14 by 9 feet, and 112 feet high-

The interior forms a third rotunda of 38 feet diameter and 86 feet high, well lighted by five pointed Gothic windows 13 feet wide and 43 feet high. This rotunds is intended to be divided into ten separate galleries, for the use and encourage ment of young men of genius, in the study of the Fine Arts; in executing Historical Paintings to embellish the Great Saloon, and in modeling statues of the Heroes of the Revolution, to adorn the interior and exterior niches.

The whole will be surmounted by a Galvanized cast iron Pentagon pinnacle, 36 feet at the extreme angles of the base, and 194 feet high.

The pinnacle will be cast in the form of window mullions and filled in with metal sashes and glazed with glass. Inside, is to be a wrought non spiral starrcase, to ascend 146 feet to a platform and a look-out-

A platform will be erected inside of the punnacle, 25 feet above the base, where instruments may be placed for an Asronomical Observatory, which will be 279 feet from the base of the monument. The upper look-out will be 400 feet from the base, making the whole hight from the walk to the top of the crocket of the pinnacle 425 feet.

The following is the Act of Incorporation:

AN ACT Passed April 18th, To Incorporate "The Washington Monument Association in the City OF NEW YORK:

The People of the State of New-York represented in Sente and Assembly do enact as follows:

Sec. 1. MORGAN LEWIS.

SEC. 1. MORGAN LEWIS,

STEPHEN ALLEN,
MOSES H. GRINNELL,
ROBET, H. MORRIS,
WM. W. FOX.

PETER COOPER,
JOHN W.-FRANCIS,
and their successors are hereby constituted a body corporate,
and their successors are hereby constituted a body corporate. Define Cooper.

John W. Francis.

And their successors are hereby constituted a body corporate, by the name of the "Washington Monument Association in the City of New-York." for the purpose of secting a Monument to the memory of Gronge Washington—for procuring within the said City a suitable piece of ground for that purpose—for receiving and collecting subscriptions and contributions for that object—making and enforcing contracts therefor—appointing Agents to solicit and collect money—architects, mechanics, and others to direct, superintend, and erect the said Monument, to maintain, pieserve, and ornament the same by such works of Art, and such memorials of the Revolution, and other great events in the History of this Country, as may be deemed proper, and also appropriating the income to be derived from the said Monument to such worthy objects, as to the Board of Trustees may seem suitable, and best.

Sec. 2. The affairs, property and powers of the said Corporation shell be managed and exercised by a Board consisting of thirteen Trustees, residing at the time of their appointment in the City of New York, and such Board shall keep an Office in the said City, for the transaction of the business of the said Corporation.

Sec. 3. The persons named in the first section of this act,

Corporation.

SEC. 3. The persons named in the first section of this act, shall compose the first Beard of Trustees, and whenever a vacancy in the said Board shall happen, the same shall be filled as roon as conveniently may be, by the votes of a majority of the remaining Trustees, at a meeting of the Board to be seld the same of the second of the se in pursuance of such notice as may be prescribed by the By-Laws of the said Corporation.

SEC. 4. The Board of Trustees shall have power to appoint a President, and Vice President from their own body reliable

a President, and Vice President from their own body, to hold their respective offices for one year, or until others are appointed in their stead, and also to appoint a Secretary, Treasurer, and such other officers and agents, as may from time to time be necessary to and them in the performance of their trust,—to remove them at pleasure, and to compensate and pay such Secretary, Treasurer, other Officers and Agents for their services from the fund of the Association, and to prescribe their serveral, and respective duties: And also to make such By Laws and regulations, (not inconsistent with the laws of this State for the government of their own Board, the management and direction of their business, the crection, maintenance, preservation, regulation, custody and use of the said Monument, the terms and conditions of admittance within the same, and the using and disposing the income derived therefrom, as they may from time to time judge necessary and expedient. And the said Board shall take from the Treasurer a Bond with one or more sufficient suncty, or sureties, in a sum not less than Fifty Thousand Dollars, conditioned for the faithful peformance of his duties, and from such other. Officers, and Agents, such security as the said Board may think proper.

Sec. 3. So soon as the sum of Fifty Thousand Dollars shall have been collected, it shall be competent for the said Corporation to purchase, or otherwise acquire ground, and commence the erection of the said Monument, and to make contracts therefor: Provided, however, that if the said sum of Fifty Thousand Dollars be not collected within three years from and after the passage of this Act, it shall be the duty of the said Corporation to refund the money on hand to the respective contributors, upon the presentation of the Corporation in the Usual hours of business, at the office of the Corporation in the several and respective contributions, and without abatement

City of New-York, pro-rata, according to the amount of the several and respective contributions, and without abatement therefrom, except for the expenses of collection and safe keeping of such monies, and the expenses necessarily incurred in the organization and conduct of the affairs of the association, and the Corporation hereby created shall thereupon cease and

and the Corporation hereby created shall thereupon cease and determine.

SEC. 6. No person shall receive, either directly or indirectly, any compensation for services rendered as Trustee, President, or Vice President of the said Association.

SEC. 7. It shall be lawful for the said Corporation, for the purpose of detraying the expenses of the Association, adding in the completion of the work, and the purchase of such works of Art, and other suitable ornaments and memorials, as the Board of Trustees may think proper, to require and receive from visiters admitted within the Monument such small before such said it person) as the Board may think proper; Provided, nevertheless, that any person who shall contribute the sum of One Hundred Dollars to the object specified in this Act shall be entitled to such admittance for himself and family, at all reasonable times, without charge.

SEC. 8. Cont acts made by the said Corporation for any purposes of this Act may be executed under their common seal, or in such other mannner as the By-Laws of the Corporation for any purposes of this Act may be executed under their common seal, or in such other mannner as the By-Laws of the Corporation for any purposes of this Act may be executed under their common seal, or in such other mannner as the By-Laws of the Corporation for any purpose.

seal, or in such other manner as the By-Laws of the Corporation may prescribe.

SEC. 9, All moneys collected or received by the said Corporation, or its Trustees, Officers, or Agents, shall be faithfully
applied to the purposes designated by this Act, and to no other
purpose; and if any Trustee, Officer, or Agent of the Association shall convert any money, choses in action, or other property contributed, or otherwise received for, or belonging to
said Corporation, to his own use, he shall, in addition to his
own liability, and the liabilities of his surties, for the same,
and for all damages sustained by the Association thereby, be
deemed guilty of felony, and upon conviction be punished by
imprisonment in a State Prison, not less than two, nor more
than ten years.

than ten years.

Sec. 10. Any person or persons who shall wilfully and mischievously injure or deface the said Monument, or any part thereof, either while the same is in progress of erection, or after it shall be completed, shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by imprisonment in the County Jail not less than three months,

meanor, and, upon conviction thereof, shall be plantated wit imprisonment in the County Jail not less than three months, nor more than one year.

Sec. 11. The Board of Trustees shall meet in the said City of New-York on the first Monday in December in every year, and on such other days, as may be directed by the By-Laws. And it shall be lawful and competent for the President, or for any three of the Trustees, to call a meeting of the Board at any time, upon giving notice by letter, written or pruted, to be addressed to each frustee, and deposited in the Post-Office of the said City, not less than two days before the day of meeting, specifying the time and place of such meeting.

Sec. 12. There shall be prepared by, or under the direction of the Board of Trustees, on the first Monday of January in each year, a report of the affairs of the said Corporation, setting forth the amount of money, and other property contributed or received, the amount disbursed, and the objects to which it had been applied, and the procress of the work during the year then past; which report shall be immediately thereatter published, not less than three times, in one or more of the daily papers printed in the City of New-York, and a copy thereof shall be addressed and forwarded to the Speaker of the Assembly, and another copy thereof to the Governor of the State.

Sec. 13. The Board of Trustees shall cause all their pro-

tate. Sec. 13. The Board of Trustees shall cause all their proceedings to be recorded in a book to be kept for that purpose, which book, and the By-Laws of the Association, shall be open to the inspection of every person who may have contributed any funds, or property, to the objects of the Asso-SEC. 14. The Corporation hereby created shall possess the neral powers, and be subject to the habilities, and provi-ous, contained in title third of chapter eighteen of the first et of the Revised Statutes, with such qualifications and

part of the Revised Statutes, with such qualifications as modifications as are by this Act specially provided.

SANDS'S SARSAPARILLA

FIVE DOLLARS A YEAR

There are f-w persons in this reading country of ours who are not to some extent acquainted with the virtues of the Ex tract of Sarsaparilla. It has been prepared by very many pe sons, some quacks, and some not; but it seems now to that has yet made its appearance before the publi Sands have devoted much attention to the subject for m. years, and it is hardly to be doubted that they are glad to hear that they are reaping the reward which study and industry almost always secure. Their Sarsa; is now easerly sought after in every quarter of our co

[New-Orleans Weekly Tropic, June 2, 1242.]
This unrivaled preparation has performed some of the moastonishing cures of diseases that are recorded in the annals. history, thus proving conclusively it is capable of fulfilling after trying different remedies, spending thousands of doll in traveling and doctoring, and suffering all that human natu ful affection of the bones, Ulcerated Throat and Nosteil. Scurvy, Biles, Chronic Sore Eyes, Blotches and various of taneous eruptions, are effectually cured by its use. Diseases h ving their origin in an impure state of the blood and fluid generally will be speedily and effectually removed by this invaluable medicine, as its operation is peculiar, and consists it and passing through the general system. Where obstruction to its favorable operation exist, they are temoved as it pass along the alimentary canal; hence the patient will feel a know the sensible operation of the Sarsaparilla from its cur-

The proprietors are daily receiving from the medical profes ion, the clergy officers of justice, and numerous private cit tens, ample and willing testimony, both written and verbal, t the superior value and efficacy of this preparation. To the poor it is furnished gratuitously on sufficient proof being far nished of their worthiness.

The following certificates from individuals who have suffered with Scrofula in its severest form, are presented for the careful perusal of the afflicted:

Essex, Conv., July 25, 1813.

Messrs Sands—Gent.: About eight years since, by bein overheated and directly after exposed, I was seized with a system cold, which deranged the whole system. Purple or livi spots appeared on the skin, attended with violent pain of the head; the symptoms being adarming, a physician was calle who prescribed blistering and leaching, which produced petial relief. Hard bony lumps formed under the skin on varior parts of the body, and the Doctor pronounced my complain hereditary Scrofula now for the first time devoloped. The lo again resorted to, which relieved my sight during the summer; my nose now becan to increase in size and the whole body rapicly enlarged with a dropsical swelling. The nose even grew very sore and discharged profusely the most loathsome substance. My whole system was involved in disease; the lumps softened and discharged freely producing great deolily; afects now broke out on the legs, and to complete my misery, the mustless and sinews contracted so that I was rendered nearly helpless. I remained with little change in this condition until last October, when I was suddenly seized with an indescribable sensation which rendered me nearly unconscious, and my friends supposed it was the will of kind Providence to rid me of my sufferings, but from this I recovered only to suffer on: the ulcers had become one continuous sore entirely raw. It was in this condition I commenced the use of your invaluable Sarsai arilla which I was induced to use from the many remarkable cures I saw published. It came to me as some guardian angel, and I can scarcely tell why, yet from the moment I heard it mentioned I was impressed fully with the belief that this was to be the Good Samarian for me—and truly it has wrought wonders in my case. After using it a few days

ief that this was to be the Good Samaritan for me—and truly that wrought wonders in my case. After using it a few days ny patna grew easier, the swelling of the body and limbs went lown, the ulcers commenced healing, and I rested well. After affering every thing but the pains of death, how happy am I and how grateful do I feel to be able to add another testimonial to the efficacy of your priceless Sarsaparilla! My health is restored, and I have walked four miles without neonvenience. I superintend my family affairs, and in fact cell almost like being in a new world. I am induced to make his public acknowledgement from a deep sense of duty due to you as a means in the hands of God of restoring a fellow mornal from a premature grave. Language is madequint to exyou as a means in the hands of God of restoring a tellow inc.

tal from a premature grave. Language is inadequate to e
press my feelings. May the Lord be with you, and make b
face to shine upon you, is the sincere desire of your min
obliged and deeply indebted friend. To the afflicted I won
say, Do not despair; for, however desperate your case may b
you surely have an antidote at hand—viz.: Sands is Sandar
RILLA. Trust to no other, however treat their prefensions.

New-York, July 26th, 1813.

Messes. Sands—Gent.:—My daughter, aged six years, was attacked with the hip disease when two years old, and since then she has been growing gradually worse until recently, and her suffering at intervals was most painful to behold, and baffles all description. The head of the hip bone was thrown

Remarkable cure of Hip Disease.

then she has been growing gradually worse until recently, and her suffering at intervals was most painful to behold, and baffles all description. The head of the hip bone was thrown entirely out of place, after which matter or puss formed in the socket of the joint, and for many months insuccession she was entirely deprived of all natural rost. She was reduced to a microscopic state of the joint, and for many months insuccession she was entirely deprived of all natural rost. She was reduced to a microscopic state of the joint, and for many months insuccession she was entirely deprived of all natural rost. She was reduced to a microscopic state of the property of the was my fervent prayer her sufferings might be terminated and my anxious fears removed.

The Almighty has promised to be with us in six troubles, and in the seventh he will not leave us nor forsake us, if we put our trust and confidence in Him; and truly I can say it has been verified in the present case. Through His blessing and your instrumentality, my child lives—yes, is restored to perfect health, and is a living monument of the efficacy of your health-restoring Sarsapar.lla. We had tried all the remedies within our reach, had the bone once set, had it blistered and purg-d, without effect. She commenced the use of the Sarsaparilla in April last, and in less than a week there was an evident improvement: a discharge came on from the hip joint, and in a few days it commency dhealing, and in less than two weeks was entirely closed. During the time of using the Sarsaparilla she passed large quantities of Worms, which aided materially in hastening the cure. She rapidly improved in health and strength, her appetite increased, and she is now entirely restored, and wholly so by the use of your Sarsaparilla. With the grateful feelings of a mother's heart and father's joy, we subscribe ourselves your friend,

NaRAH BAILEY,
